Subject: Amendment to Carpooling Requirements on CNL sites

Date: 2020-07-06

Amendment to Carpooling Requirements

With reference to the Notices issued by CNL in respect of requirements and guidance for Contractors Working, or returning to work on CNL Sites during COVID-19, CNL would like to provide a further update to its requirements for Carpooling as follows:

Carpooling remains discouraged, but no longer prohibited at CNL sites. CNL will continually monitor this situation as it resumes operations, and may re-impose further restrictions should this be necessary. CNL would advise that Contractors shall continue to observe all relevant guidance (Government/Province) and will respect the contractors' own carpooling safety policy should this continue to prohibit carpooling.
